

From: Liana Munroe liana.munroe@icesoft.com 
Subject: Icefaces4 Samples Regressions (parameter namespacing)
Date: June 26, 2014 at 10:37 AM
To: faces-qa QA faces-qa@icesoft.com

Results compared against Icefaces4/trunk rev# 41510 of June 25, 2014.
Samples have been configured with the "namespaceParameters" context-param.

Nearly every issue reported in r41493 with namespace parameters is identical to the results seen with this revision.

ICEfaces4 trunk revision# 41522

Server: tomcat7
Browser: FF3.6, IE7 & Chrome35
JSF: Mojarra 2.2.6

Sample Test Results:

auction

itemDetails (All) - [Passes manually.](#)
Concurrent ItemDetails (All) - [Passes manually.](#)

elementUpdate

Input Elements Individual (All): [testing image "url" and image "alt" fails](#) (not an issue without the "com.sun.faces.namespaceParameters=true" context-param).

scopes

Window Scope, Multi-Window Scope (All) - [reloading the page, or redirecting between pages resets the counter.](#)
View Scope Disposed (All) - [reloading the page fails to keep the instance counter at 1.](#)

showcase (FF29)

accordion

> Pane Change, Toggle Effect: [NullPointerException when switching accordion panes or when loading :](#)
Jun 23, 2014 10:34:37 AM com.sun.faces.context.AjaxExceptionHandlerImpl handlePartialResponseError
SEVERE: java.lang.NullPointerException
at org.icefaces.impl.context.DOMPartialRenderCallback.visit(DOMPartialViewContext.java:810)
at com.sun.faces.component.visit.PartialVisitContext.invokeVisitCallback(PartialVisitContext.java:183)

autoCompleteEntry

> All except Overview: [demos not functional, autocomplete entries not opening; "Documentation" drop-down is rendered below the component page name after interacting with this demo; unable also to leave this page afterwards, must open a new browser window to be able to navigate to other demos.](#)

chart

> Dynamic: [NullPointerException when clicking on a row in the table to generate chart \(same error message\).](#)
> Export: [Export button fails to render, "Documentation" drop-down is rendered below the component page name; unable also to leave this page after loading this demo.](#)

checkboxButton

> Custom Style: [same NullPointerException when checking/unchecking checkboxButton.](#)

comboBox

> All except Overview: [demos not functional; unable to leave demo page after interacting with component on demo until browser window is reloaded.](#)

confirmationDialog

> Modal, Effect: [interacting with demo, clicking on the yes or no buttons on the component, or selecting from drop-downs makes the "Documentation" drop-down to render below the component page name, then cannot leave the demo until browser window is reloaded.](#)

"Documentation" drop-down to render below the component page name, then cannot leave the demo until browser window is reloaded.

contextMenu

> Delegate: [ICE-9976 is open.](#)
> All demos: [selecting a component item makes the "Documentation" drop-down to render below the component page name, then cannot leave the demo until browser window is reloaded.](#)
> Effect: [when clicking on radio buttons to select an effect, the content of the page disappears:](#)

© 2013 ICEsoft Technologies Inc.

dataExporter

- > Specify Columns: clicking on radio buttons to select an export type makes the content of the page disappear.
- > Specify Rows/ Specify Data: after selecting an export type, clicking on "Export File" not functional and the export type is re-set to "CSV"; unable then to move away from the demo until page is reloaded.
- > Custom Exporter: NullPointerException when trying to expand dataTable row.

From here on almost all components failed in similar ways.

dataTable

- > All except Overview, Column Stacking and Column Resizing fail.
- Row State: [ICE-10080](#) is resolved. [ICE-9953](#) is reopened.

dateTimeEntry

- > All except Overview fail.
- > Locale: [ICE-9750](#) is open.

Dialog

- > All except Overview.

DraggableDroppable

- > All except Overview.

FileEntry

- > All fail: content disappears from page when uploading.

gMap:

- > All fail, documentation menu overwrites the header.

list

- > All except Overview fail. Demo does not update on submit.

maskedEntry

- > All except Overview fail.

....

Let me know if you want us to further test the other demos.

Regards,
Liana
